

COMMUNITY DIRECTOR UPDATE

DECEMBER 2, 2024

COMMUNITY NEWS

We're excited to share an update on our LED Light Project, a key initiative to conserve energy and enhance sustainability in our community! Our team is currently replacing external garage and carport lights with new LED fixtures equipped with photo-eye sensors. These sensors automatically adjust lighting based on the surrounding light levels, ensuring energy efficiency while maintaining visibility and safety. Thank you for your patience as we work to complete this project and make our community brighter and greener!
